Custom Crafted Doors & Components

We craft Dependable

In 1964, Conestoga Wood Specialties was born in a small garage in rural Lancaster County, PA...a unique place where family so often is the driving force behind business success. It's behind the work ethic that has enabled Conestoga to craft the finest cabinetry doors and wood components in the industry. And most important, it's behind our passion to treat each customer like family.

Those who know Conestoga understand that the word used to describe us has always been dependability. They know that they can depend on the quality and beauty of our materials...on the painstaking precision of our craftsmanship...on the knowledge and helpfulness of our people...and on our unrivaled record of complete and on-time delivery over 99% of the time.

Absolute dependability is what has made us special in our industry. It has made us number one...but only because we are driven to make you number one, every single day.

Imagineering, Everyday

It never ceases to amaze how the human spirit continually strives for fresh, innovative, imaginative ways of expression...which is precisely what fuels us in our ongoing quest to push beyond the status quo in all we do.

Wood Beauty

Transforming raw wood into pure beauty requires the intuitive selection and quality grading of countless species, both common and rare, by our people who, through years of experience, have risen to the level of masters of their skill.

Handcrafted Construction

In the more than half a century since our founding, the world of custom cabinetry has been blessed with countless technological innovations, but we have yet to find one that comes close to the pure skill, talent, and passion of our seasoned craftspeople.

Finishing Strokes

We offer thousands of combinations of species, stains, paints, and glazes, so there's literally no end to your finish possibilities.

Boundless Flexibility

One basic design opens the possibility to doors for any taste and any budget.
